

CONFIDENTIAL

25X1

SUPPLY DIVISION WEEKLY REPORT

PERIOD ENDING 10 APRIL 1984

I. Progress Report on Tasks Assigned by the DCI/DDCI:

None.

II. Items or Events of Major Interest that have Occurred During the Preceding Week:a. OSB Training:

25X1 [redacted] OL/SD/DCB, will be conducting the Agency
 25X1 Standard Automated Property System (ASAPS) course on 7 and 8 May at the
 25X1 [redacted] Building. [redacted]

b. Disposal of Personal Property:

25X1 Representatives from Supply Division [redacted] SMB; [redacted]
 25X1 MFB/CD; [redacted] CR&DS/MFB/CD) met with GSA disposal
 managers on 5 April to establish personal contact and to discuss the disposal
 of excess property under \$500. The Federal Property Management Regulations
 (FPMR) state that "all line items of less than \$500 original acquisition cost
 are nonreportable regardless of condition, except furniture, which is
 reportable regardless of acquisition cost". This statement caused concern
 since no statement could be identified in the FPMR's that addressed how
 agencies should dispose of property less than \$500. The meeting with GSA
 alleviated the concerns in this area. GSA assured us that property in this
 category is reportable under somewhat different reporting procedures, which
 were discussed. A tour of the disposal warehouse was provided by GSA. The
 meeting was valuable to both agencies and the GSA disposal managers expressed
 a willingness to work with us on any area of concern. [redacted]

c. GSA Leased Vehicle Program

25X1 GSA has begun its two-year vehicle replacement program covering
 model years 1977 through 1982. [redacted] office
 25X1 has advised that two of their vehicles have been replaced with 1984 Chevrolet
 25X1 Citation models. Likewise, [redacted] office
 25X1 received a 1984 Chevrolet Citation to replace its 1979 model vehicle. [redacted]
 [redacted]

III. Significant Events Anticipated During the Coming Week:

None.
